This Policy relates to schools that have purchased an account with School PUPIL TRACKER and that have subsequently converted to academy status during the terms of the Licence.

If your School has converted to academy status, logging in to your account constitutes an agreement to migrate your Licence with full legal responsibilities, as set out on the Terms and Conditions, from the previous school account to the new school academy.

If your school has converted to Academy status we will transfer the legal responsibility of your School Pupil Tracker Online licence to the new academy name. By logging in to your School PUPIL TRACKER account and accessing Your Information, you are agreeing for us to transfer legal responsibility for your licence to enable us to store Your Information under a licence between School Pupil Tracker Limited and the new academy. There will be no changes to the Terms and Conditions, costs or details of the licence and the licence will continue to expire as set out in the Licence Certificate. The old licence with the pre-academy school name will be closed.
